

**Innovative Technology**

INTELLIGENCE IN VALIDATION

# Quality Policy Statement

It is the Policy of Innovative Technology to seek continual improvements in the sourcing, supply and manufacture of our products and services in every aspect of delivery, quality, performance and reliability.

It is our mission to dominate markets by innovation, providing better value for money products.

We recognise that this goal can only be achieved through our commitment to effective Quality Assurance management and excellent business practices.

We understand that our employees are our ultimate strength and therefore we are committed to their training, development and involvement in striving for continual improvement towards our strategic priorities and Targets.

The Board of Directors is committed to the effective implementation of a companywide Quality Assurance System which aims to satisfy the requirements of BS EN ISO 9001: 2015. The responsibilities have been delegated to the Quality Assurance Manager to ensure that the system is understood, accepted and implemented throughout the Business.
