

Innovative Technology

POWERING TRANSACTIONS AND INTERACTIONS

CBA9

"Compact, affordable
bill acceptor"

- Enhanced sensing technology
- Exceptional field reliability

Features

- Enhanced sensing technology
- Proven field reliability
- MDB remote download
- Free, fast & easy firmware updates high speed bill acceptance

Benefits

- High acceptance rates
- Cost effective bill validator
- Update over comms line
- Future proof - update via USB, PC or handheld programmer

Technical Specification

Power

Requirements: 12V
Standby: 0.2A
Running: 1A
Peak: 3A

Bezel Options

Horizontal/Vertical
Rainbow illumination

Cashbox Options

300/600 slide
300/600 clip

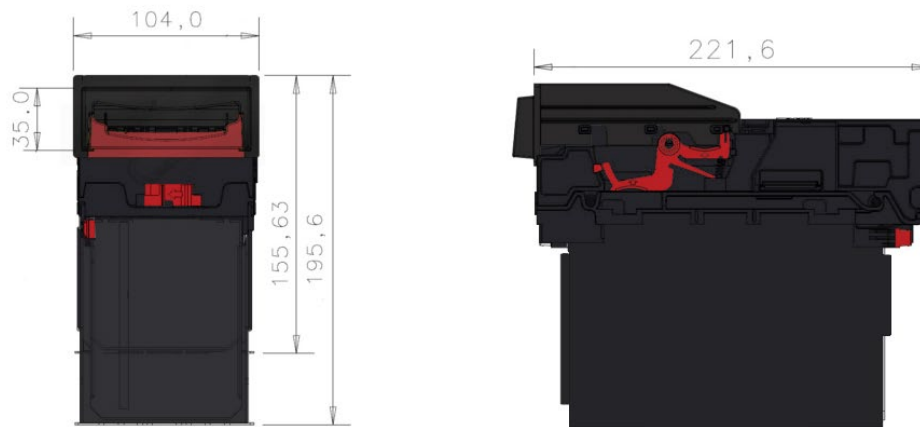

Protocol

SSP
MDB
Pulse (PL1)

Interfaces

USB
Open Collector

Dimensions

- Weight: 1.7kg
