POWERING TRANSACTIONS AND INTERACTIONS

NV200 Spectral

"The most technically advanced validator in its class"

Model shown includes
Docking Interface (PA02014)

- 100% note image capture - 4.8 million datapoints
- 99%+ first time acceptance of new & street grade notes
- Stained note detection
- 2 second note to note processing
- Modular design - recycler or ticket printer available

Features

- Full spectral imaging sensors validate the authenticity of notes
- Optical & mechanical anti-strimming technology
- 2 seconds note to note processing time
- 4 way barcode acceptance
- Note centering mechanism
- Internal memory for data logging and SD card for simple updates

Benefits

- Unrivalled genuine note detection & protection against fraudulent notes
- Outstanding fraud protection
- Speeds up transaction time & operator profitability
- Increases ticket acceptance rates & user satisfaction
- Exceptional note handling & reliability
- Best in class performance & future proof your investment

Technical Specification

Power

Requirements: 12/24V
Standby: 350/200mA
Running: 1.5A
Peak: 3.5A

Protocols

SSP
*others on request

MCBF

200,000

Interfaces

USB 2.0
RS232
Open collector
Opto-isolated

Note Dimensions

Width: 60 - 85mm
Length: 115 - 170mm

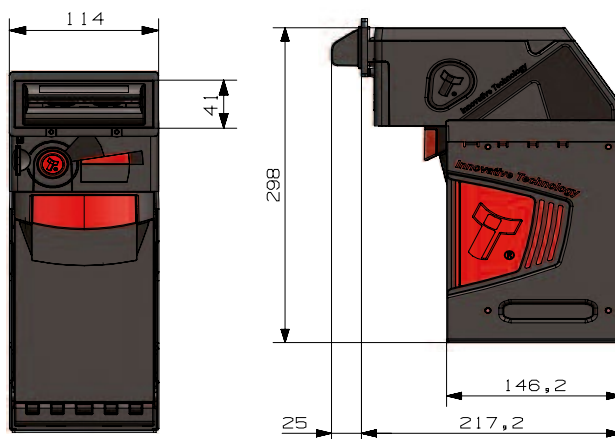

Cashbox Options

500 notes 2200 notes
1000 notes Freefall

** Some national currencies differ in thickness and circulation practices. Depending on usage, this can impact cashbox capacities by 10-15%.
