POWERING TRANSACTIONS AND INTERACTIONS

# NV4000

Multi Bill Recycler

"Advanced, high volume mixed bill recycler"

**NEW**  
Increased capacity  
up to 680 bills

**spectral**  
NV4000  
MULTIBILL RECYCLER

- Accelerate customer throughput
- Significantly reduce expensive service calls
- Increase staff efficiencies with fewer refills

## Features

- Modular design, dispense up to 680 bills of 5 denominations
- Faster bill processing, optimise transaction times
- Exceptional street grade bill first time acceptance & rejection of stained bills
- On-board diagnostics for in-house troubleshooting. No tools required to access all bill routes
- Optional ~ 400 bill secure replenishment cassette to auto float all recycling modules or use as a high volume single denomination recycler

## Benefits

- Increase staff efficiencies with fewer refills
- Accelerate customer throughput & enhance experience
- Future proof your cash handling investment & protect revenue
- Significantly reduce external service calls & machine downtime
- Improve efficiency with automated float management

# Technical Specification

## Power

Requirements: 24V  
Standby: 400mA  
Running: 3A  
Peak: 7A

## Protocols

SSP

## MCBF

100,000

## Bezel

85mm width      BNF insert up to 30 bills

## Bill Dimensions

Accepts: Width: 60-85mm  
Length: 115-165mm

Recycles: Width: 60-82mm  
Replenishes: Width: 60-79mm

## Interfaces

USB option      Open collector      RS232

## Cashbox

1000 bills

## Recycling Capacity

70 x 4 recycler modules

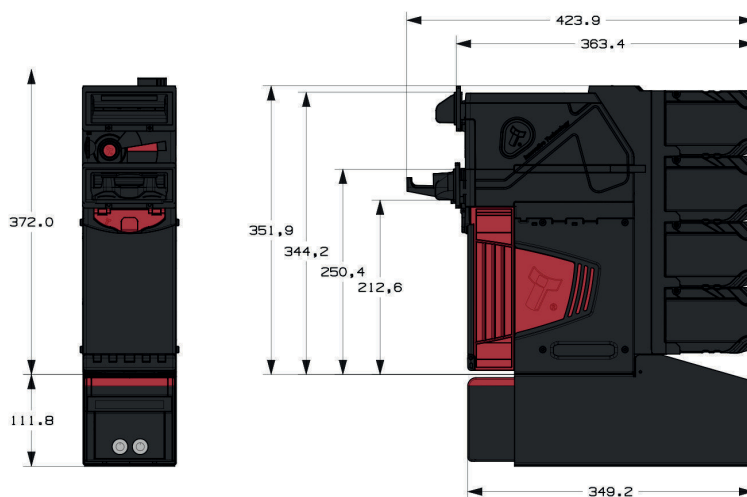

## Replenishment Capacity

~ 400 bill replenishment cassette

## Communication

Direct USB

*Some national currencies differ in thickness and circulation practices.  
Depending on usage, this can impact cashbox and replenishment capacities.*

- Weight: 11kg

## Other Configurations

NV4000  
with BNF &  
Replenishment  
Cassette

NV4000 with  
Coin Resistant Bezel  
& No Replenishment  
Cassette
