NV4000

Multi Bill Recycler

"Advanced, high volume mixed bill recycler"

NEW
Increased capacity
up to 680 notes

spectral
NV4000
MULTIBILL RECYCLER

- Accelerate customer throughput
- Significantly reduce expensive service calls
- Increase staff efficiencies with fewer refills

Features

- Modular design, dispense up to 680 bills of 5 denominations
- Faster bill processing, optimise transaction times
- Exceptional street grade bill first time acceptance & rejection of stained bills
- On-board diagnostics for in-house troubleshooting. No tools required to access all bill routes
- Optional ~ 400 bill secure replenishment cassette to auto float all recycling modules or use as a high volume single denomination recycler

Benefits

- Increase staff efficiencies with fewer refills
- Accelerate customer throughput & enhance experience
- Future proof your cash handling investment & protect revenue
- Significantly reduce external service calls & machine downtime
- Improve efficiency with automated float management

Technical Specification

Power

Requirements: 24V
Standby: 400mA
Running: 3A
Peak: 7A

Protocols

SSP

MCBF

100,000

Bezel

85mm width BNF insert up to 30 bills

Bill Dimensions

Accepts: Width: 60-85mm
Length: 115-165mm

Recycles: Width: 60-82mm

Replenishes: Width: 60-79mm

Interfaces

USB option Open collector RS232

Cashbox

1000 bills

Recycling Capacity

70 x 4 recycler modules

Replenishment Capacity

~ 400 bill replenishment cassette

Communication

Direct USB

*Some national currencies differ in thickness and circulation practices.
Depending on usage, this can impact cashbox and replenishment capacities.*

- Weight: 11kg

Other Configurations

NV4000
with BNF &
Replenishment
Cassette

NV4000 with
Coin Resistant Bezel
& No Replenishment
Cassette
