POWERING TRANSACTIONS AND INTERACTIONS

NV9 Spectral

"The most versatile note validator"

spectral
NV9

- Full note high resolution imaging - 1.28 million data points
- Faster note to note processing
- Optical and mechanical anti-strimming technology

Features

- Full note high resolution imaging - 1.28 million datapoints
- Fast note to note processing
- Optical & mechanical anti-strimming technology
- Various cashbox and bezel options
- Easy maintenance, free firmware updates

Benefits

- Unrivalled genuine note detection & protection against fraudulent notes
- Speeds up transaction time & operator profitability
- Outstanding fraud protection
- Versatile validator, suitable for all applications
- Future proof – quick & easy updates via USB, PC or handheld programmer

Technical Specification

Power

Requirements: 12 / 24 V
Standby: 300mA / 130mA
Running: 2A / 1.5A
Peak: 2.5A / 2A

Interfaces

USB option
Open collector

MCBF

200,000

Protocols

SSP
Others on request

Bezel Options

66/69/82mm width
Rainbow illumination
Horizontal
Vertical up/down
Various snout options

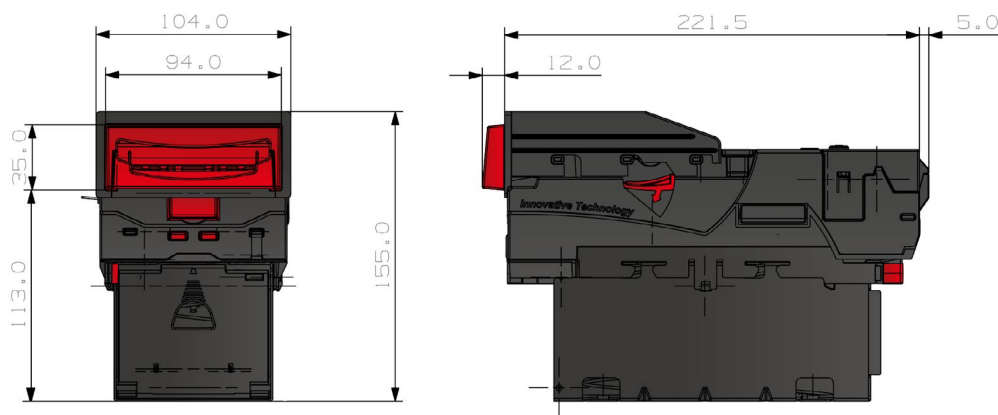

Cashbox Options

300/600 slide
300/600 clip
Lockable option

Some national currencies differ in thickness and circulation practices. Depending on usage, this can impact cashbox capacities by 10-15%.

Note Dimensions

Width: 60 - 82 mm
Length: 115 - 167 mm

- Weight: 1.4kg

Popular Configurations

Horizontal 300 Slide

Vertical 300 Clip

Horizontal 600 Slide
